

**Product Name :**  
Carton Strapping Machine

**Product Code :**  
EQUP-MC20087-0042

**Description :**

Carton Strapping Machine

**Technical Specification :**

Power Supply 230 Vac  
Capacity 20 per minute  
Weight 80 Kg  
Power Source 230 Vac  
Phase Single  
Strapping Speed 2 per second  
Voltage 230 Vac

Carton Strapping Machine is suitable for strapping cartons of various heights very quickly without the need for bothersome strapping tools & metal seals.

When you place the carton on the table & pass the strap around it, the strap self-tightens, cuts & seals onto the carton automatically & is ready for the next carton.

**Features:**

- Simple Operation: Ergonomically designed control panel for easy operation. Strap at quick speed and with high efficiency. Only takes 1.5 seconds for strapping one polypropylene (PP) strap
- Quick Heating: Instant-heating systems, low voltage of 1 V., high safety and will be in best strapping state in 5 seconds after you start the machine
- Engine: Robust and Precise Construction of engine requires easy and simple routine maintenance to ensure longer life
- Energy Saving: Designed to cut off after 1 minute when not in use - prolongs motor life and is energy efficient.
- Wide Range of Strap Width Selection: Simple adjustable strap guide to accommodate strap width from 6 mm to 15 mm

- 
- Variable and Consistent Tension: Tension can be easily adjusted from low to high by a simple knurled nut.
  - Electromagnetic clutch, quick and smooth. Coupled - Axle Transmission, Quick Speed, low noise, low wear and tear, hence maintenance free
  - Powder Coated body & parts, Stainless Steel tabletop. All electrical components like timer, solenoid, micro switch etc. of best quality
  - Lift type top cover allows convenient maintenance

|                   |               |
|-------------------|---------------|
| Strapping Tension | 5 – 60 Kg     |
| Strapping Speed   | 2.2 sec/strap |
| Strap Width       | 6 – 15 mm     |
| Power Supply      | 220 VAc, 1 Ph |
| Consumption       | 0.4 KVA       |
| Machine Size      | 82X56X68 cm   |
| Machine Weight    | 80 Kg         |
