

**Product Name :**  
Tube Sealing Machine

**Product Code :**  
EQUP-MC20087-0063

**Description :**

Tube Sealing Machine

**Technical Specification :**

Capacity 20 per minute  
Packaging Material Tubes  
Packaging Type Plastics Tubes  
Power Consumption 100 Watt  
Voltage 230 Vac

Tube Sealing Machine is suitable for sealing of Pouches & Colgate type Plastic Tubes. This is a portable & compact machine with digital temperature control & Electronic sealing Timer used to maintain the Temperature & Time required for sealing. Speeds upto 30 tubes per minute is obtainable.

|                        |                        |                       |
|------------------------|------------------------|-----------------------|
| Sealing Width / Length | 7 mm / 4 Inches        | 2 to 10 mm / 2 Inches |
| Capacity               | 600-900 Tubes/hour     | 30 Tubes/Minute       |
| Power / Max. Power     | 220V 50 Hz / 400 Watts | No Power              |
| Dimension (W x L x H)  | 600 x 500 x 1200       | 150 x 200 x 80 mm     |
| Weight                 | 22 kg                  | 6 kg                  |
