

Product Name :
Truck Loading Conveyor

Product Code :
EQUP-MC20087-0086

Description :

Truck Loading Conveyor

Technical Specification :

Capacity 50-100 kg per feet
Type Automatic
Length 10-20 feet
Height 10 Feet
Belt Width 20-30 inch
Operating Speed 2-3 m/s
Usage/Application Truck Loading
Power Kw 2 Kw
Voltage 440 Vac
Phase 3 phase

Truck Loading Conveyor that is used in loading boxes and gunny bags into truck and used for moving them into higher places for stacking purposes. Our clients can avail these at competitive prices and we meet customized requirement.

Features:

- Length Width & Height to suit your requirement
- Rugged Heavy Duty Machine with Sturdy Steel Base
- Roller / Belt / Slat Conveyor with Optional Variable Speed
- M.S. adjustable Side guides will be provided for product alignment.

- All bearings will be of reputed make like SKF/TR/KG etc.
- All nut bolts will be of high tensile make.
- System will be provided with Tensioning and Tracking arrangement.

Web Width / Weight	75 – 600 mm. / 50 Kg Max
Max. Parent reel dia	400 mm
Max. Rewind reel dia	400 mm
Rewind Core Dia.	32 & 38 mm. Std
Max. designed speed	120 M / min
Substrate	Foil/Film: 9-20 Micron
Motor	1 HP DC Motor with reduction gear box step less control drive
Structural Fitting	M. S. Channel frame body with Mechanical clutch & break unwind / rewind system, unwind / rewind shaft & cones for printed material holding cores, for printed material holding cores, aluminium - Guide Roller & all other standard accessories
