

Product Name :
Army Military Bomb Suppression Blanket

Product Code :
EQUP-MC20008-0008

Description :

Army Military Bomb Suppression Blanket

Technical Specification :

Bomb Suppression Blanket with Safety Circle provides the bomb technician with light weight, highly protective and portable bomb handling equipment. The Bomb Suppression Blanket with Safety Circle are designed to contain

lower velocity splinters upon detonation.

Bomb Suppression Blanket with Safety Circle when used together, eliminate the direct contact with a bomb and provide a safe environment for the disposal of explosive devices. The Bomb Suppression Blanket has heavy duty

nylon webbing handling straps which permits the safe placement over a potentially explosive device.
