

Product Name :
Check Weigher

Product Code :
EQUP-AX203120002

Description :

Check Weigher

Technical Specification :

Check weigher makes use of advanced digital signal processing technology for high speed and stable weighing. Special frame structure ensures high accuracy and reliable performance while working. With LCD touch screen, the weighing machine is easy to operate. With high capacity for statistic data, the check weigher can memorize all detection data.
