

Product Name :
Police Arrest Gloves

Product Code :
EQUP-MC20281-0006

Description :

Police Arrest Gloves

Technical Specification :

The police arrest gloves are non-fatal tools for law enforcement, which are widely used to arrest the criminals by the public security department.

It can generate low pressure pulse current that has shrinkage function to human body.

It is convenient to use and has strong concealment, the humanized design keeps no harm to the operator.

Wear this police arrest gloves and press the button sustaining 2 seconds, then capture the bare skin of the criminals for 2-3 seconds, which can make the person lose resistance ability immediately.

Working voltage: 3.5V-4.2V

Output pulse current: ?10mA

Output pulse voltage: Alternating current 60V-320V

Shutdown state storage time: ?6 months (Need charge every 3 to 6 months)

Normal working hours: ?8hours

Battery capacity: 3.7V 700mAh

Continuous electric shock: 2S-6S

Power consumption: ?0.2W

Charger power input: AC 85-245V

Charger output power: DC 5V/0.5A
