

Product Name :
Thermal Imaging Scopes and Infrared Scopes

Product Code :
EQUIP-MC20284-0006

Description :

Thermal Imaging Scopes and Infrared Scopes

Technical Specification :

Thermal Scope has light type (TK-L), mid type (TK-M), and heavy type (TK-H) to match guns with different ranges. Among the products on same level, TK is small in size, light in weight, lower in power consumption, longer identifying distance, and higher reliability. With built-in image transmission module, it can be connected with head-mounted devices by wireless for easy and hidden observing and shooting. The operation is simple and reliable, with automatic gun calibration and probability ranging function.

Wireless Image Transmission

IP67 Water And Dust Proof

Single Roller Operating

Eye Cup Preventing Light Leaking

Low Power Consumption

Auto Zeroing

Ultra-Far Vision

High Reliability

Module: Resolution?384x288 17?m

Spectral Band?8~14?m

FOV?14.9°x11.2°

Display: 0.38' OLED 800x600

Eyepiece Diopter: -5~+3

Exit Pupil Distance: 30mm

Digital Zoom: 4x

Optical Magnification: 2x

Power Supply: 18650*1

Weight(With Battery): ?0.4kg

Battery Life: ?8h

Dimension(With Eye Cup and Lens Hood): 190x76x82mm

Interface: External Power Supply/Analog(PAL)/RS232/WIFI

Operating Temperature: 40?~+55?

IP Grade: IP67
