

**Product Name :**

Portable Multi-band bomb Jamming Device for Police and Military

Product Code :

EQUP-MC20281-0011

Description :

Portable Multi-band bomb Jamming Device for Police and Military

Technical Specification :

This product has small volume, light weight, which is convenient for the individual soldier to carry. This device is capable of carrying out defensive interference against terrorists and criminals, simple remote-controlled radio devices commonly used and remote-controlled explosive devices improvised from existing civilian wireless communication tools.

Operating mode: Easy ON/OFF button, OLED display showing battery level

Transmitting power: 300W

Power Consumption: MAX. 700W

Power: AC220V/DC24-26V

Working time: Built-in DC24V&30AH can support continuous working for 60 minutes

All the time working in AC mains.

Built-in charger: 29.5V&2A Maximum charging time is 5 hours

Weight (Contain antenna): 35kg

Size: 63*50*30cm

Modular No.: 12

Antenna No: 12 (3 omnidirectional antennas + 9 directional antennas integrated one)

Outer Case: Pelican 1660, IP65

Reliability & Maintainability: MTBF?1000 hours, MTTR?1 hour

Selecting Interference target: (1) Cellphone frequency band; (2) wide band frequency

Interference mode: Block frequency band signal; Sweep frequency interference

Working Mode: Combined Sweep frequency, grooming spectrum and direct sequence spread spectrum
