

**Product Name :**  
Eight Separate Rechargeable LED Light Source

**Product Code :**  
EQUP-MC20283-0014

**Description :**

Eight Separate Rechargeable LED Light Source

**Technical Specification :**

Adopt the most advanced single wavelength new light source, high purity of output light, strong directivity, uniform spot, wide light projection, no color filter, no color difference, can provide uniform lighting. Clear without visual interference, lightweight and portable, easy to charge and use, no memory effect.

Light source: White light: CREE T6 10W LED

Other band: 3W LED

Battery: 18650 lithium battery

Wavelength: 620nm, 455nm, 365nm, 585nm 470nm 530nm 395nm white light

Battery life: white light 2h

Material: Aviation grade aluminum alloy 6061-T6

Surface treatment: Thickened anodic hard oxidation, dumb black.

Size: ?33(head)\*?28(handle)\*175mm

Weight: single 235G (battery included)
