

Product Name :
Wide-band Footprint Light Source

Product Code :
EQUP-MC20283-0016

Description :

Wide-band Footprint Light Source

Technical Specification :

The footprint light source with LED chip has good coloration spectrum and high intensive illumination. The light source is anti-knock in all-weather environment. It is operated with lithium battery which can be used for 2 hours continuously when fully charged. It is a good solution for field criminal investigation, reconnaissance, search and rescue, etc. in the state of no electricity. The light is widely used in military affairs, police, criminal investigation, patrol, security, search and rescue, exploration, reconnaissance, etc.

Light Source: LED

Rated Power: 18 pieces 90W

Continuous Illumination: 2 hrs

Illumination Intensity: ?8000LM

Output Width: Ahead: 50cm Side: 100cm

Spectral Range: 400-700nm

Color Temperature: 7000K

Lamp Life: >50000 hrs

Battery: 12V lithium battery 8AH

Power Supply: AC100V-240V 50HZ-60HZ

Net Weight: 2.1 kg

Size of Light: 26X17.8X5.1cm

Package Dimension: 43X31X12cm
