

Product Name :
Automatic Shrink Packing Machine

Product Code :
EQUP-MC20075-0018

Description :

Automatic Shrink Packing Machine

Technical Specification :

Automatic label is a newly design set. It insert the label onto the bottle surface and shrink the label properly.It is easy to operate for adopting man-machine interface.

Trait

The machine adopts human/ machine interface controller for user-friendly operate.

Can be use with production line

Special designed knife plate id change with the rated specifications

Convenient change of specifications with the use of tools

Forced insertion design proves reasonable and convenient. Integrates adjustment more convenient

Accommodates film paper core size 5-10

Suitable foe high sensitivity optical sensor ensuring accurate length of cut.

Capacity	Bottle diameter	Lable insertion length	Material	In/out diameter	Main power	Size	Weight
6000B/H	D:25?130m	40?220mm/ lable length+bottl e high?480m	PVC/PET/O PS	5??10?(D:1 30?250mm)	2KW	2000x1100x 2300mm	About 1200KG
