

Product Name :
Food Single-Layer Storage Tank

Product Code :
EQUP-MC20076-0005

Description :

Food Single-Layer Storage Tank

Technical Specification :

Application field?

? Usually is used for storage water tank?storage liquid tank, temporary storage tank?etc.

? Suitable for such fields as dairy?juice?beverage?medicine chemical or bio-engineering project?etc.

Structure:

? Single layer structure

? Material of tank is stainless steel

Standard scheme:

? Quick open manhole

? Numeral indication type thermometer

? T type cleaning head

? Hauling lever style releasing valve

? Adjustable taper branch feet.

Application field:

Used for rawness milk tank, processed milk tank, mixing tank (without heating),temporary storage tank,waiting for filling tank, etc.

Normal volume (L)	Diameter (mm)	Hight (mm)	Diameter of inlet outlet
