

Product Name :
Fruit Screw Conveyer

Product Code :
EQUP-MC20088-0002

Description :

Fruit Screw Conveyer

Technical Specification :

Product performance characteristics

1. This machine uses the reducer to drive the spiral rotation and shift the material to achieve the purpose of transportation;
2. In addition to the bearing of the power unit, the rest of the structure is all stainless steel, in line with food hygiene standards;
3. It has the advantages of simple structure, small cross-sectional area, convenient sealing and transportation, multi-point feeding or unloading;
4. Shell type: "O type" or "U type" Spiral form: no shaft, single shaft or multiple shaft;
5. Simple structure, convenient for closed transportation, multi-point feeding or unloading;
6. The inside of the spiral can be added with a flushing water pipe to facilitate the cleaning inside the screw.

| Capacity(T/H) | Power(KW) | Dimension(mm) |
|---------------|-----------|---------------|
| 1-3 | 1.1 | 6000x300x300 |
| 3-5 | 1.5 | 6000x350x350 |
| 8-10 | 3 | 6000x400x400 |
| 13-15 | 4 | 6000x450x450 |
