

Product Name :
Fruit Hammer Crusher

Product Code :
EQUP-MC20088-0007

Description :

Fruit Hammer Crusher

Technical Specification :

Product performance characteristics

1. This machine is used to break up raw materials such as fruits and vegetables into small diameter particles for convenient operation.
2. Incorporating Italian technology, multiple sets of cross-blade structures;
3. The whole machine is made of high quality stainless steel and meets food hygiene standards;
4. The side of the equipment is equipped with a quick opening door for easy cleaning and overhaul;
5. High-precision dynamic balance detection, more balanced operation and lower noise;
6. The feed funnel adopts a "Z" shape structure to avoid material splashing;
7. The crushing size can be adjusted according to the requirements of the customer or the specific project, and the juice yield of the raw juice.

Capacity(T/H)	1-3	3-7	7-10	10-15	15-20
Power(KW)	5.5	7.5	18.5	22	30
