

Product Name :
Fruit Screw Juicer

Product Code :
EQUP-MC20088-0011

Description :

Fruit Screw Juicer

Technical Specification :

Product performance characteristics

1. The device is suitable for pressing juice of pineapple, carrot, apple, aloe vera, cactus and other fruits and vegetables, and has the functions of crushing, juicing and slugging.
2. The screw shaft pushes the squeeze, and the volume of the spiral cavity is gradually reduced to form a press for the material;
3. The parts in contact with the materials are made of stainless steel and meet the food hygiene standards;
4. Screens with different pore sizes can be selected according to the characteristics of the materials;
5. Easy to operate and easy to maintain.

Capacity(T/H)	Power(KW)	Dimension(mm)
0.4-0.6	1.5	1000x600x1200
1.4-1.6	4.5	1400x800x1400
2.5-3	11	1600x1000x1500
3-5	22	1900x1200x1800
