

Product Name :
Pure Water processing Plant

Product Code :
EQUP-MC20089-0012

Description :

Pure Water processing Plant

Technical Specification :

Complete Pure Water processing plant
The water plant are for producing various kinds of pure drinking water.

Pure water production plant

- 1.Raw water storage tank
 - 2.Raw water pump
 - 3.Sand filter (Multi-media)
 - 4.Active carbon filter
 - 5.Water softener
 - 6.Micro filter
 - 7.High pressure pump
 - 8.Reverse osmosis (R.O)system
 - 9.Sterilizer (U.V or Ozone)
 - 10.Pure water tank
- Pure water filling and packing section

Raw material
Product
Capacity
Product package

Tap water, underground water
Pure drinking water
5T/D – 1000T/D
plastic bottle, plastic cup, plastic bag, etc
