

Product Name :
Packing Machines Vertical Sticker Labeling Machine

Product Code :
EQUP-MC20085-0005

Description :

Packing Machines Vertical Sticker Labeling Machine

Technical Specification :

Direction of Movement Left to Right
Output Up to 300 Label/Min
Power Supply 230 v
Phase Single Phase
Frequency 50Hz AC Supply

Salient Features :

- S.S. 304 construction including main machine frame.
- S.S. 304 Slat chain conveyor.
- Very smooth and high speed of operation.
- On-line speed can be vary at single point.
- Accurate label placement.
- Vibration free label Roll opening unit.
- Built in AC Freq. drive system.
- Built in Product counter.
- Suitable for round shape container - Glass, Plastic, HDPE, Pet, Tin, etc.

Optional Features :

- Label Roll Empty : Machine stop with Alarm.
- Acrylic cabinet.
- Missing Label : Machine stop with alarm or online pneumatic operated product rejection system.

Tower light : Indicate the status of process.

Online Printer.

Online vision inspection of printing and Batch no. Servomotor instead of stepper motor - for high speed application.

Technical Specification :

Depends on container and label size.

Specification can be altered as per customer specific requirement.
