

Product Name :
Packing Hand Sanitizer Filling Machine

Product Code :
EQUP-MC20085-0063

Description :

Packing Hand Sanitizer Filling Machine

Technical Specification :

Driven Type Electric
Material Stainless Steel
Power Consumption 2 H.P. 1 Phase 220V AC
Usage/Application Industrial
Machine Type Automatic

We have marked a different and dynamic position in the market by providing a high quality of Automatic Hand Sanitizer Filling Machine.

This machine is constructed from high quality stainless steel. It are often operated & controlled by its advanced instrument panel. This Automatic Hand Sanitizer Filling Machine works on volumetric principle. We offer great diversity modules of fillers including semi-automatic function. It is capable of labeling up to 300 Bottles per minutes depending on products and label size.

Optional Features

- Automatic chain washing system for conveyor belt.
- In-built pre-inspection.
- Acrylic cabinet.
- Acrylic cover on conveyor.
- Nitrogen Flushing.
- Float tank (Holding tank) with or without stirrer

Technical Data• Model :

- Output/min*: Up to 300 Labels
- Power Supply: Single Phase 230V, 50Hz AC Supply
- Volume Capacity: 50 ml to 5 Ltr
- Working Direction: Left to Right
