

**Product Name :**  
Packing Edible Oil Filling Machine

**Product Code :**  
EQUP-MC20085-0064

**Description :**

Packing Edible Oil Filling Machine

**Technical Specification :**

Capacity 30-60 BPM  
Power Consumption 2KW  
Driven Type Electric  
Filling Volume 50-5000ml  
Automation Grade Automatic  
Bottle Size Range 50-1000ML  
Bottle Type PET/HDPE/GLASS/TIN  
Air Consumption 1 CFM  
Number Of Heads 4  
Material Stainless Steel

Automatic Liquid Filling Machine is applicable in various industries like Pharmaceuticals, Distilleries & Breweries, Cosmetics & Herbals, Lube & Edible Oil, Pesticides, Food & Ancillaries etc.

This machine works on Servo motor controlled volumetric Piston with diving nozzles. It works on No container no filling system to avoid spillage.

Empty Containers moving on S.S. Slat conveyor, stop through settable twin pneumatically operated stopper system below the filling nozzles which is avoid spillage of liquid on container and meantime container accurately filled by filling nozzle. The liquid dose can be easily set by block with a hexagonal bolt fitted below syringes
