

Product Name :
Packing Sanitizing Filling Machine

Product Code :
EQUP-MC20085-0067

Description :

Packing Sanitizing Filling Machine

Technical Specification :

Driven Type Electric
Material Stainless Steel
Power Consumption 2 H.P. 1 Phase 220V AC
Usage/Application Industrial
Machine Type Automatic

Automatic Volumetric Liquid Bottle Filling Machine work on volumetric principle with driving nozzles. The unit is consisting of S.S Slat Conveyor, Reciprocating Nozzle with self-cantering devices & SS Syringe with S.S. body.

Empty Containers moving on S.S. Slat conveyor, stop through settable twin pneumatically operated stopper system below the filling nozzles and meantime container accurately filled by filing nozzle.

The twin pneumatically operated stopper system and reciprocating nozzles can precisely match for centering of container below nozzles, to avoid spillage of liquid on container.

The liquid dosing block with a hexagonal bolt fitted below syringes so that fill size can be easily set.
